

## **Faculty Positions**

### **Centre for Regenerative Medicine**

### **Shenzhen Institutes of Advanced Technology**

### **Chinese Academy of Sciences**

The Center for Regenerative Medicine seeks exceptional candidates in the field of but not limited to developmental and stem cell biology and regenerative medicine. Successful candidates will have PhD and/or MD degrees with a record of originality and productivity in graduate and/or postdoctoral research, well-formulated plans for independent research. The recruits will have the opportunity to develop a collegial and highly collaborative world-class institute studying development and developmental disorders, stem cell biology and regenerative medicine using techniques of biochemistry, electrophysiology, pharmacology, molecular cell biology, genetics, embryology, confocal microscopy, time-lapse multiphoton imaging and cell sorting. These positions offer competitive start-up packages with strong supports from Chinese Academy of Sciences and Shenzhen Municipal Government. Each position includes a faculty appointment at Chinese Academy of Sciences.

The center, located in the beautiful campus of Shenzhen Institutes of Advanced Technology-CAS (<http://english.siat.cas.cn/>) with newly renovated lab space, surrounded by the Southern University of Science & Technology, Peking University-Shenzhen Institute for Research as well as Tsinghua University-Shenzhen Institute for Research. Shenzhen is the pioneer city in economic reform and now taking on new endeavour in research and development which transforms the city into the center for innovation and revolution of life and business.

To apply (email preferred), send a two-page statement of research interests and goals, curriculum vitae and three letters of recommendation to:
