Chinese Biological Investigators Society 11th Biennial Conference

The Ray Wu Awards
and the CBIS Young Investigator Awards

August 1, 2016
Chengdu, China

Award Ceremony
Chaired by Dr. Yibing Kang, Princeton University

2016 CBIS Ray Wu Award

Xiaoliang Sunney Xi

Mallinckrodt Professor

Harvard University, Cambridge

Director of BIOPIC

Peking University, Beijing,

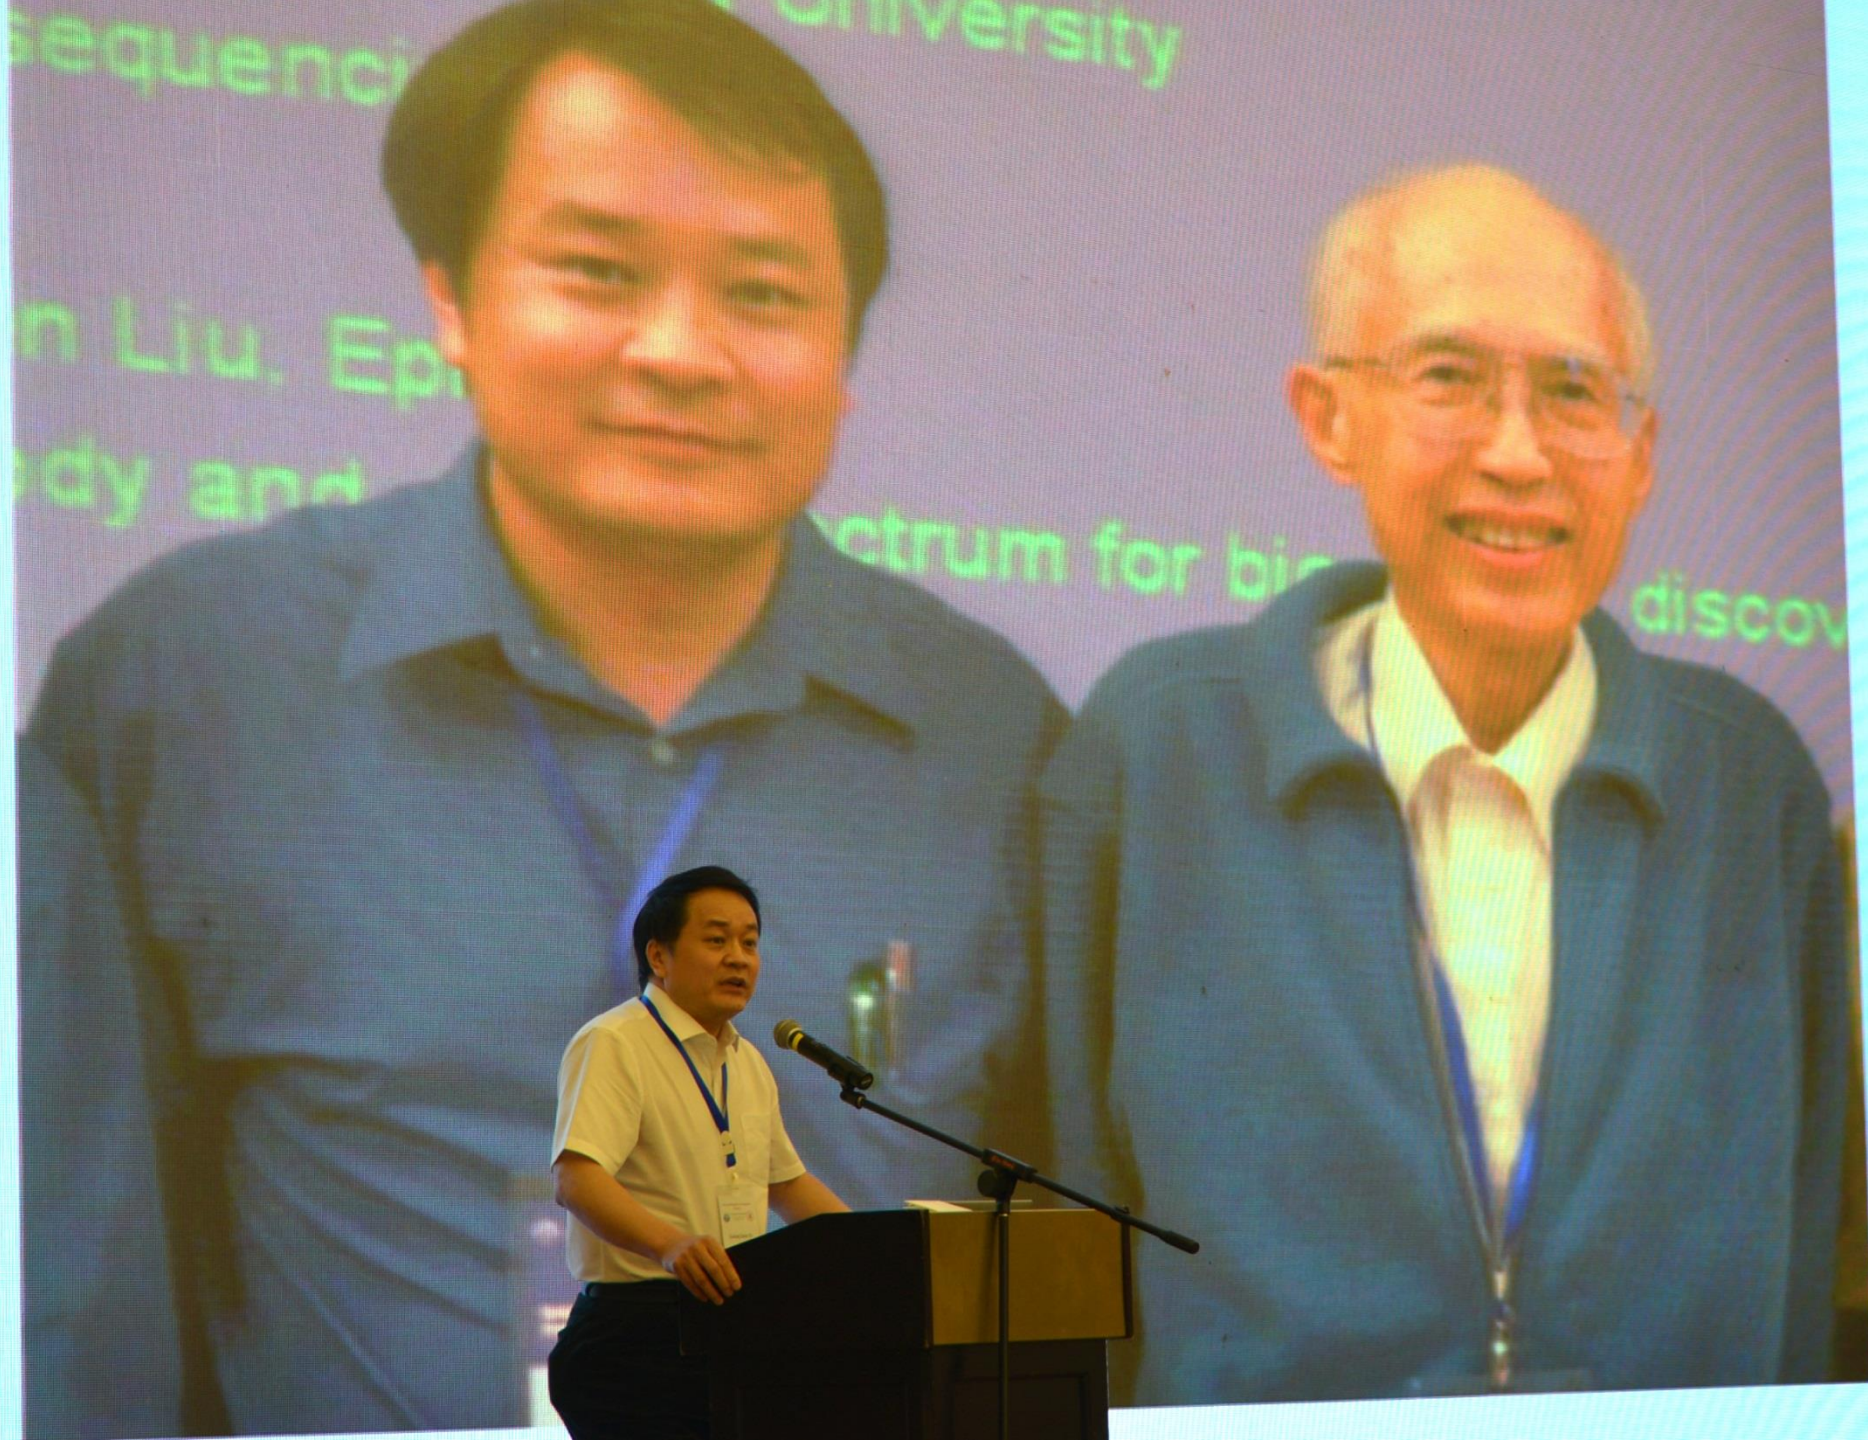

for his contributions in single-molecule enzyme kinetics and
expression, his transformative innovations in single-cell ge
engineering work on CARS microscopy that allows 3D imag
d organisms

The Ray Wu Award:

Dr. Xiaoliang Sunney Xie, Harvard University

The Ray Wu Award: Dr. Xiaoliang Sunney Xie, Harvard University
“Precision genomics at the single molecule level”

2016 CBIS Ray Wu Award

Xiang-Dong Fu,

Professor of Cellular and Molecular Biology

University of California at San Diego

San Diego, USA

Director, Chinese Academy of Sciences

Key Laboratory for Nucleic Acid Research

Institute of Biophysics, Beijing

For his important contributions in elucidating the mechanism of gene expression as well as how regulatory RNAs and RNA binding proteins regulate gene expression.

The Ray Wu Award:

Dr. Xiang-Dong Fu, University of California San Diego

The Ray Wu Award: Dr. Xiang-Dong Fu, University of California San Diego
“Global analysis of RNA-chromatin interactions reveals cell type-specific transcriptional hubs in 3D genome”

USBEA program: C... that made the difference

Ray Wu Award
presented to
Dr. Xiang-Dong Ju
In recognition of outstanding
leadership and achievement in
Biomedical Research
August, 2016

Ray Wu Award
presented to
Dr. Xiaoliang Sunny Xu
In recognition of outstanding
leadership and achievement in
Biomedical Research
August, 2016

2016 CBIS Young Investigator Award

Ling-Ling Chen, F

Principal Investigator

Shanghai Institute of Biochem

Cell Biology

Shanghai Institutes for Biol
Sciences, Chinese Academy of

Shanghai, China

her contributions to the field of RNA Biology, particularly
classes of broadly expressed new lncRNA species, inc
lAs and circular RNAs, as well as their biogenesis and
ntial.

The CBIS Young Investigator Award:

Dr. Ling-Ling Chen, Shanghai Institute for Biological Sciences

The CBIS Young Investigator Award:
Dr. Ling-Ling Chen, Shanghai Institute for Biological Sciences
“Unusual processing generates long noncoding RNAs with new formats”

Young Investigator
Award
presented to
Dr. Lingling Chen
In recognition of outstanding
achievement and potential in
Biomedical Research
August, 2010

2016 CBIS Young Investigator Award

Hai Qi, PhD

Professor of Immunology

School of Medicine

Tsinghua University

Beijing, China

*his important contributions in the field of humoral immune
seminal discoveries in T follicular helper and germinal ce*

**The CBIS Young Investigator Award:
Dr. Hai Qi, Tsinghua University**

2016 CBIS Teaching Award

Chenjian Li, PhD

Vice Provost, Peking University

Professor and Associate Dean

School of Life Sciences

Peking University

Beijing, China

*his extraordinary contribution to education in biomedical
particularly in China.*

**The CBIS Teaching Award:
Dr. Chenjian Li, Peking University**

y contribute to edu

Teaching Award
presented to
Dr. Chenjian Li
In recognition of dedication
and achievement in Teaching
Biomedicine in China
August, 2018

University of Michigan
Center for Global Health
Hao Wu
Associate Professor of Health and Behavior
L1000 MC 6100
6100 MC 6100
